

Knowledge matters . . .

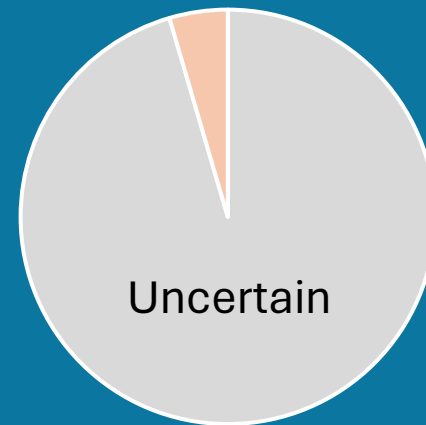

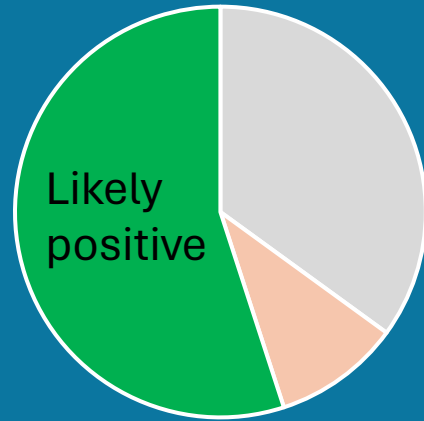

Those who “know more” about UAPs

TOP 10 WORDS	
Transformation	(22%)
Technology	(13%)
Hope	(11%)
Potential	(9%)
Enlightenment	(9%)
Uncertainty	(9%)
Shock	(7%)
Evolution	(7%)
Exciting	(7%)
Chaos	(6%)

Based upon 73 respondents.

More knowledge leads to more positivity and less uncertainty

Implications	Know More	Know Less
Likely positive	18 items	0 items
Likely negative	4 items	2 items
Uncertain	22 items	42 items

THEME 1

A shift in global awareness

- The recognition of “We are not alone” might unite humanity, emphasizing our minor differences compared to the cosmos’s vast diversity of life.
- Could start global conversations on our collective cosmic role, and push towards planetary stewardship and disarmament.
- Might lead to deeper introspection about humanity’s purpose and destiny among the stars.

Survey Implications

- “We are not alone.” narrative unites people.
- NHI says “Take care of the planet.”
- Humanity explores its deeper purpose.

THEME 2

Deeper engagement with NHI

- Decline in taboos around extraterrestrial life could open discussions on personal contact, promoting acceptance and healing.
- Mainstream society might embrace communication methods with NHI's, like meditation and indigenous practices.
- NHI's may become more openly present in response to our readiness.

Survey Implications

- UFO/ET taboo fades.
- Acceptance of abductions.
- Expanded NHI contact by humans.
- NHI more visibly present.
- U.S Congress verifies recovered craft and bodies.
- Unlikely: NHI helps humanity with AI.

THEME 3

Boost to science and technology

- STEM fields could see renewed interest and funding, spurring research in quantum science and advanced travel methods.
- Application of UAP technologies could revolutionize energy, transportation, and communication sectors.
- Paranormal research might gain recognition, altering our understanding of consciousness and interactions with physical reality.

Survey Implications

- Increased investment in STEM.
- Huge investment in UAP tech.
- Psi goes mainstream.
- Some success with reverse engineering

THEME 4

Expanded sensing and consciousness

- Human sensory abilities, like telepathy and psychic healing, may evolve due to the revelation of UAP's, and NHI's.
- Investigations into inter-dimensional realities, and the nature of time and reincarnation could widen.
- New spiritual movements may merge ancient wisdom with modern multi-dimensional concepts, fostering a sense of cosmic unity.

Survey Implications

- Expanded human sensing.
- Recognition of interdimensional realities.
- Integration of indigenous beliefs.
- Emergence of mystical religions.
- Interdependence of technology and consciousness.
- Cultural renaissance.

THEME 5

Many people remain disengaged, others hostile

- Initial skepticism and disengagement could hinder the integration of UAP revelations.
- Misinformation and hoaxes may complicate disclosure authenticity.
- Extremist groups might show hostility towards contactees and acceptance of new realities.

Survey Implications

- People tune out.
- Widespread video hoaxes.
- NHI demonized by religious extremes.

THEME 6

NHI intentions and capabilities remain uncertain

- Optimism prevails that NHI's could be non-violent and supportive, potentially offering technologies to alleviate current global problems.
- The existence of human-NHI hybrids may impact the disclosure narrative positively.
- However, fears persist that some NHIs may be hostile or manipulative.

Survey Implications

- NHI found to be non-violent.
- NHI provides technology to help humanity.
- NHI technology leads to global solutions and UBI.
- Free energy technology.
- Study of crop circles.
- Hybrids participate in disclosure.
- NHI indifferent to humanity.
- Traumatic encounters with NHI.

THEME 7

Will the secret agenda of the national security state succeed?

- The national security state may continue to control disclosure through misinformation and secrecy.
- Might we discover that rogue elements within the military have been interact in with NHIs for mutual self-interest?
- On the other hand, defense contractors and government agencies might face backlash and demands for accountability and transparency.

Survey Implications

- Deep state controls narrative.
- Secret defense programs protected.
- Rogue military colludes with NHI.
- Backlash against deep state.

THEME 8

Unknown social impacts

- Positive: Ancient civilizations stories might be reassessed, and nuclear disarmament efforts could strengthen.
- Negative: Community divisions and violence, increased economic inequalities, and market upheavals due to technological disruption.

Survey Implications

Positive

- Humanity honors its galactic history.
- Treaties reduce nuclear weapons.
- UN/Vatican take a leadership role.

Negative

- Disclosure fractures society.
- Worsening inequalities lead to social revolt.
- Hybrid witch hunts.
- Rich get richer.
- Stock market collapses.
- Decline in state sovereignty.

A set of challenges to our core notions of reality

- What it means to be human
- The sovereignty of the nation-state
- The authority of religions
- The range of species involved and their motivations
- The possible presence of hybrids on our planet
- An upheaval in the sciences
- Possible existing military collaborations with NHI
